DAHO HAS SOME FAMOUS OLD MINES

salmon Country Promises to Produce Great Abundance of Ore-Many Mines Now Running.

It was as a mining state that Idaho irst attracted the attention of the outide world, and to the activity of the prospector and the mines her first rreat exploitation was due. No section treat exploitation was due. No section of the state is richer in mineral resources than that tributary to Salmon city. Along in the 60s, the famous blacer diggings at Leosburg were dispovered; this was about the beginning of mining in this section. Since that time more than \$40,000,000 of gold has been taken from the plucers orf Lembi pounty, says the Boise News.

Promising properties in the Gilmore district are the Silver Moon, Viola, Lughes, Democrat and Junction Mines company. These are promising lead-silver properties carrying high gold values.

tohannon creek, are some extensive

Bohannon creek, are some extensive placers that have been operated for a number of years very profitably.

Six miles north of the city is located the Queen of the Hills mine, owned by the Copper Queen Mining & Smelting company. This is one of the best equipped mines in the country. It has an electrically driven stamp mill, gy-ratory crusher, 10 stamp battery, amaigamation plates and Wilfley concentrator. The ore carries values from \$2.50 to \$60 per ton. This mine is in the hands of people who will de-

from \$2.50 to \$60 per ton. This mine is in the hands of people who will develop it to the best advantage.

The Kittie Burton mines are located on Indian creek. In these the core occurs in a flat dipping quartz filled vein in schist, the gold values being in the native state in combination with fron pyrites. Adjacent to the above property is the Ulysses, twhich has been an ore producer for years. The ore bodies are constantly lincreasing and the mine is paying better than at any time in its career.

OWNED BY SALT LAKERS.

At Shoup, the old Grunter mine has produced over \$50,000, and is reported to have at least \$300,000 worth of gold-bearing ore in sight. Near the Grunter bearing ore in sight. Near the Grunter lare the Kentucky claims. These consist of a group of 23 claims owned by Salt Lake parties. The gold occurs in a large fissure in granite, the width being from four to 15 feet. These claims which have been lying idle for lack of transportation, will eventually be developed by electric power. Over \$650,000 was taken from the surface workings. In the Yellow Jacket district the Yellow Jacket mine is the principal one. There is a 60-stamp mill here, electric light plant, saw mill and all necessary buildings. The ore deposit consists of a large low grade fissure, which has developed extensively. The most important showing in the Parker Mountain district is the Par-

The most important showing in the Parker Mountain district is the Parker mine. This is an extremely attractive showing. The ore consists of hard quartz, carrying bands of argentite with native gold, and the vein occurs in andesite, tufa and breccia.

Among the properties in the Pratt Creek district are the Goldstone and Climax. There is a 10-stamp mill on this property. The depth of the workings is 500 feet with 3,000 feet of tunnel and levels. Others are the Dark Horse, White Horse and Eldorado. The tranger vein in the latter shows signs of permanency. nermanency.

NEW MILL RUNNING.

U. P. mine, seven miles from on City, is another good property Salmon City, is another good property which only requires more capital to prove its great value. The Italian mine in the Leesburg district is down over 200 feet with a tunnel 400 feet in length. The ore is low grade, in large bodies of soft altered granite. A new 30-stamp mill is in operation. This is one of the few mines in the country where modern methods are being used. where modern methods are being used.
Under these methods of treatment the
cost is less than one dollar per ton.
In the Gibbonsville district, which

was a large producer of gold in the past, several properties have been lying idle for lack of transportation but will undoubtedly take front rank with the leading producers. Today, the Glimore country threatens to duplicate the performance of the old Viola which at one time produced one-fourth of the at one time produced one-fourth of lead product of the United States.

REPORTS GOLD STRIKE.

(Special to The News.) (special to The News.)

Provo, July 27.—It is reported here
that George Bucknerr has discovered
a deposit of rich geld and copper ore
in Decker canyon, west of Charleston
in Wasatch county. Some of the samples he has brought out go as high as
\$75,000 to the ton. The extent of this
ore body has not been determined, but
Mr. Bucknerr claims to have driven
five feet into it.

JACKLING DENIES STORY.

Copper Magnates Are Resting in European Cities.

The report that the Utah Copper com-pany was to be consolidated with Amalpany was to be consolidated with Amalgamated interests was flatly denied today by D. C. Jackling, vice president and general manager of the Utah Copper company. A dispatch from New York Saturday declared that arrangements had been made, according to a dispatch from London, for the consolidation of the properties. Mr. Jackling declared that there was no truth to the story that Amalgamated Copper had secured control of Utah Copper and that therefore there was no reason to believe in a consolidation. Officially elieve in a consolidation. Of Jackling declared he had

nothing.

The dispatch from New York said

Elf itsfortheofice Breeden has it"

Good

We've a lot of good arguments why we should get your business. We'll tell

you three.
THIS IS NO. ONE:
We believe you are loyal
enough to this town to
want to buy locally, prowant to buy locally, provided you get reasonable treatment. Most of the goods in our store are sold at eastern prices—the balance are priced as low as local conditions will permit. The more we sell the easier it will be to lower prices. He loyal.

Argument No. 2 Tomorrow

that a representative of the Utah Cop-per and John D. Byan of the Amal-gamated interests had taken up the matter with the Rothschilds and Baron Hirsch in London for the curtailing of the copper production.

the copper production.

It is probable that the story grew out of the fact that a number of the heads of large copper mining interests are at present taking vacations in Europe and were recently in London together. Among them were John D. Ryan of the Amalgamated, Charles M. MacNeill, president of the Utah Copper and U. Broughton, president of the Utah Consolidated.

SHORT OF WATER.

R. G. McQuarrie and son, Bert, and returned Saturday from their valley mining property. Their sare opening up nicely and show-ioner with development. They have remained and continued work had not their water supply failed them, the wash from which they gen-erally obtain water having dried up.— Washington County News.

BRAGS UP GOLD MACHINE.

C. A. Robinson, who is interested with C. A. Innman in a gold machine with C. A. Innman in a gold machine known as the Inman separator, which is now being successfurly worked on the Webb & Boren property on Wilson mesa, came in Wednesday to receive some medical steatment, says the Grand Valley Times. Mr. Robinson figures that he is operating the best gold machine in existence. The property is turning out good values and he says that placer mining on the mesa is as certain of profitable results as the purchase of gold bends.

Mr. Robinson reports a strike of a ledge of thousand-dollar ore on the Black Jack claim during the past week, The ore was found at a depth of six feet.

MILL NOW OPERATING.

Bingham-New Haven Plant Starts on Low Grade Ore.

The Bingham-New Haven mill The Bingham-New Haven min at Bingham has again started operations after being remodeled in a great many ways. At present it is running with rolls and Wilfley tables and is far simpler than at any time since it was built. The mill was started up last week and is now handling in the neighborhood of 100 tons a day of leads. borhood of 100 tons a day of lead-silver ore.

The plant has hardly been in operation long enough to ascertain the sav-ings, but it has the appearance of be-ing a success. The new method in use at the mill cut down expenses considerably and thus far has given very sat-isfactory results. The concentration is running about two and a half tons into

one.

The mine is in splendid shape and it is understood that there is mill ore enough in sight to run the plant for the next two years. On account of the low price of copper the mine has devoted most of its attention to its leadsilver-gold product.

CONCENTRATES.

A find of good placer gold sands between the Cottonwood and Wilson ranches near Las Vegas, Nev., has caused considerable excitement. H. H. Farrell and associates have formed the Southern Exploration & Mining company and have taken over 2,400 acres of placer land. The values it is said runs from 40 cents to \$7 a yard.

Pope Yeatman, consulting engineer for the Guggenheim Exploration com-pany; his assistant, Edwin S. Berry, and W. H. T. Wilkins, formerly an official of the New Jersey Zinc com-pany, spent last week in the camp of Ely.

The Emma shaft of the Boston Ely company has been closed down. It is understood that until Consulting Engineer Chase makes an examination of the property for the purpose of arranging a new method of development, the property will remain idle.

The Ely Consolidated has just shipped a carload of high grade from the Bril-liant shaft to the smelter at Garfield.

The Newhouse tunnel at the Ely Cen-The Newhouse tunnel at the Eny Centennial property is now in a distance of 1,200 feet and the formation is declared to be improving with considerable indications of ore.

No time will be lost in pushing the shaft at the Dragon Iron mine at Tintic from the \$600-foot level to the 1,000. Three shifts of men are now busy under the direction of Supt. Gardiner. The output of ore to the smelter is not being slackened.

Underground telephones were in-stalled in the Chief Consolidated mine

Within the next 10 days Supt. Samuel McIntyre expects to have all the timbering completed which was destroyed to the 1,000-foot level by a recent accident at the mine.

It is declared that the Sioux Con-solidated, which is now shipping from 14 to 16 cars of ore a week, has a large amount of this ore on the 450-foot level.

According to J. H. Richards, an oil expert, California capitalists are picking up all the oil lands they can secure in Wayne, Emery, Garfield, Grand and San Juan countles. After examining the oil showings in these countles he declares that next to California Utah will be the greatest oil state.

will be the greatest oil state.

The National Mining company of National, Nev., has just distributed its first dividend on 750,000 shares of stock at the rate of 5 cents a share. This amounts to \$37,500, and it is said that the company will make a regular distribution of that size if not larger. Only the richest ore is being taken out and between 200 and 225 pounds of ore a day are being handled by the little panarrastra mills that are handling both the ore from the National and the Stall lease. The dividend will be much larger when the 30-ton Lane Slow mill is in working order.

working order. The Eagle & Blue Bell shaft now has 400 feet of shafting completed. It will not be long before the shaft is complete to the 1,000-foot level.

RICH SHIPMENT MADE FROM CAMP OF CONTACT

Averages One Hundred and One Dollars to the Ton.

The shipment of a carload of very high grade copper or last week, by way of Rogerson and Twin Falls. from Contact camp to Salt Lake, may lead to immediate further operations of the same kind; and the indications are that L. S. ("Doc.") Pratt, formerly of Twin Falls, and his associate owners of the Antelope property, have a real bonanza. Among other members of this syndicate are James Downs and R. C. Ferguson, The shaft on the Antelope is down 65 feet and in a strong ore body. At the surface it was four inches wide; at the bottom of the shaft it is two feet in width.

On account of the difficulty of geting fuel into the camp for the operation of a hoist, it was decided by this company to drive a tunnel into the hill to cut the first veim. This tunnel is already in forty feet and is making about two feet a day, working two shifts. The distance the tunnel will have to go before cross-cutting the vein is about 200 feet.

This work will be pushed with all possible speed until the first vein is cut. At this point stoping on the vein will be commenced.

The two shifts will also be kept at work on the tunnel, driving it to cut the other two veins, which are about 75 feet apart and running parallel with the first.

The ore shipped from Rogerson was sent to three different assayers, and the returns showed. \$101 per ton average. account of the difficulty of get-

the returns showed. \$101 per

REGULAR SHIPMENTS. There is no doubt in the minds of the men handling this proposition that regular shipments can be made as soon as the tunnel reaches the point where stoping can be commenc-

The ore carries 27 ounces silver and \$4.20 in gold, which pays the treatment charges, and the average in copper values being over 20 per cent, it will be seen that such ore as this can be shipped at a good profit to the company.

The rates given by the railroads

to the company.

The rates given by the railroads are high, but the freight department, in making same, was in doubt as to what to charge; and if regular shipments are made it is expected a lower rate can be secured.

The Antelope property has been incorporated for 200,000 shares, par value \$1 each, and 50,000 shares placed in the treasury for sale to carry on the development outlined.

J. H. Downey of Sparks, Nev., is president; L. S. Pratt of Contact, vice-president; Peter Holm of Wells, Nev., treasurer; R. C. Ferguson of Contact, secretary and general manager.

STRENGTHEN OPINION.

A number of conservative mining men have visited the camp the past few months, and all have had the same good opinion of it after looking over the properties. The Antelope shipment of ore, however, is expected to strengthen the opinion of these men and start the work of development on a great many of the properties more than any other incident.

It is the opinion of almost every-

It is the opinion of almost every-one who looks the camp over that when the railroad is built to Contact the place will rapidly boom.

NEW INCORPORATIONS.

The Murray Commercial club has fleed articles of incorporation with the fleed articles of incorporation with the fleed at the county clerk, the membership fee being stated as \$2.50 and any enterprising citizen of Murray eligible. J. W. Mc-Henry is president; C. H. Banks, vice president; J. L. Brown, secretary, and D. A. McMillan, treasurer. The board of governors, who will serve until 1912, consists of L. C. Miller, J. W. Cahoon, J. W. McHenry, W. H. Lyon, S. D. Bradford and D. A. McMillan, while the governors for the one-year-term are C. E. Gaufin, D. W. Moffat, J. L. Brown, C. H. Banks and Michael Mauss. Mauss.

The Liberty Investment company of Salt Lake City filed articles of incorporation with the county clerk on Saturday, the capital being placed at \$5,000. Hugh J. Cannon is president: David A. Smith, vice president; W. Scott Weiler, secretary and treasurer, and Roscoe W. Eardley, Oliver Hodgson and Elias A. Smith are additional directors.

COURT NEWS

HOT TEA CAUSES TROUBLE

Louie C. Cheander, who, while a uest at the Chesepeak cafe on July Louie C. Cheander, who, while a guest at the Chesepeak cafe on July 17 had a pot of tea inadvertently spilled down her back, scalding her and causing her such illness that she was compelled to remain in bed for several days since that time, has brought suit in the Third district court asking \$5,000 damages.

WANTS TESTIMONY PRESERVED Minnie Brattas filed petition in the Third district court Saturday asking that the testimnoy of Chris Brattas be perpetuated. Brattas was injured in the Yankee Con. mine May 5, 1910, and is now in a local hospital. The wife fears that her husband will die as the result of the injuries and asks that the testimony be taken to be used in the event she files suit to recover damages.

THREW HER AGAINST ORGAN.

Julia Price filed suit for divorce against Thomas Price Saturday charging that on July 20 he kicked her and that on another occasion he threw her against an organ, badly in-juring her. They were married May 5, 1892 and have three children. She asks \$30 per month alimony and the custody of their children.

SUES FOR FREIGHT BILL.

The Oregon Short Line Railroad company entered suit in the Third dis trict court Saturday against the C. J. Crabtree Produce company and the Utah Savings & Trust company to recover \$248 due on a freight bill. The last named defendant is sued as the surety of the produce company

JOHN H. WHITE ESTATE,

Mrs. Clara F. White applied Saturday for letters of administration on the estate of John H. White who died July leaving no will. Mr. White left an 12. leaving no will. Mr. White left an insurance policy for \$5,000, and a con-tract to deliver meat to Fort Douglas. There are 11 heirs.

SCALPERS ENJOINED

Albert Powers, W. H. Alser and C. H. Wilson were enjoined Saturday by Judge T. D. Lewis from selling rall-road tickets—a result of a suit by the Oregon Short Line Railroad company against these men as ticket "scalpers."

DRISKELL WILL APPEAL.

L. E. Driskell, who is serving a life sentence for the murder of C. C. Riley is preparing to have his case appealed to the supreme court, Judge Lewis having ordered transcripts of the case made at the expense of the state.

COURT NOTES.

Albert H. Crabbe has filed a petition in the district court asking that he be appointed administrator of the estate of Ellz. A. Grice. The estate is valued at \$500.

Because Richard Wellington's sheep trespassed on his property R. J. Bailey brought suit in the district court on Saturday for \$2,000 damages.

The Ingersoll Amusement company filed suit Saturday against "The Merry Widow" Trolley company for the violation of a lease contract. The plaintiff company was to have, it says, the exclusive right to operate the old mill and scenic railway at the Salt Palace. It asks damages of \$500.

James Eberhardt, who pleaded guilty Saturday to having stolen \$125 from Joe Zeiler, was sentenced by Judge T. D. Lewis to 18 months in the state peni-tentiary.

HOSPITAL NURSE REPORTED LIVE MAN DEAD

Chicago, July 25.—Through an error of a nurse at the hospital where he had recently undergone an operation for appendicitis. R. H. Morse, junior member of the firm of Fairbanks. Morse & Co., was reported dead yesterday. He was, in fact, however, improving so rapidly that he had been removed to his residence. The nurse at the hospital said to inquirers, "his body has been taken home."

Miss Morse, sister of the patient, was besieged with telephone calls and

Miss Morse, sister of the patient, was besieged with telephone calls and letters of condolence all day and was considering it serious until it gradually dawned on her whence the mistake originated. Obituaries had been printed yesterday morning.

"Mr. More is one of the livest men you ever saw," said Miss Morse, "and will soon be up and about again."

WE DO JOB PRINTING. Let us figure with you on blank books, certificates, booklets, or re-ceipts, in fact anything in the print-ing line.

We guarantee estisfaction. THOMAS A. BROADBENT **ENGLISH MARITIME HERO**

At Risk of His Own Life Went Into Hold of Ship Fantse and Saved Four Men From Death.

Yonkers, N. Y., July 25.-Thomas A Broadbent, a slender young Englishman, who came to work as a machinist in a factory here six months ago, has received a king's medal from the Brit-

received a king's medal from the British government in recognition of his having performed "the most heroic act of the year 1909, in all the English maritime service."

Broadbent was on the ship Fantse, which left Liverpool Aug. 26, 1909, for the west coast of Africa. Off Cape Palmas, Liberia, the ship ran upon a reef and it became necessary for all hands to get to work shifting the cargo. This included some jars of acid, which, when mixed with water, generated a deadly gas. In a lower hold where six men were working the ship's carpenter, the captain and the first mate inhaled the gas and dropped dead. Three seamen, who were just outside the death zone, fell unconscious.

When this was discovered, there were calls for volunteers to bring back the living. Broadbent volunteered and

calls for volunteers to bring back the living. Broadbent volunteered and with a rope about his middle, was lowered into the chamber of death. One at a time he brought the three sailors to the fresh air and then, barely conscious, he was lowered again at his own request to bring up the captain's body. tain's body.

tain's body.

This time he collapsed and was de-lerious for five weeks. The ship itself was subsequently succored by another British vessel and Broadbent came to

NEW YORK CATS TO HAVE ROOF GARDEN

New York, July 25 .- A roof garden for cats is the latest novelty in New York. It is being built as a part of the equipment of the Bide-the-wee home where 15 cats are now being cared for. The alfresco addition will be completed by the end of the present week.

MOTORCYCLE FATALITY.

Seattle, Wash. July 25.—Eli Berthinier, 40 years old, was killed, and his 17-year-old son, Eli., Jr., was seriously injured, when they, riding motorcycles attempted to cross the track in front of a swiftly-moving train, which was hidden from their view by a sharp curve around a hill.

CONDUCTOR CHLOROFORMED. PASSENGERS BEAT WAY

Tacoma, Wash., July 25.—Residents of Fern Hill, who have been fighting the local street car company for reduced fares, took a novel tack to beat the company last night. Some scheming passenger saturated Conductor Fournier's coat with a liquid composed of chloroform and oil of cloves. Two minutes after he left Fern Hill he fell over in a stupor. One hundred of the passengers paid no fare. WRECK OF SCHOONER GERTIE.

San Francisco, July 25.—News of the wreck of the gasoline schooner Gertie, 10 miles off Goodnews bay, on June 10, was received here last night, when the steamer Arcata arrived from the north. The Gertie was caught in an ice floe and crushed. Capt. Allan and the four men of the crew landed safely on Carter's spit after four days in an open boat. The Gertie carried a cargo of 50 tons of supplies for Koskowin, Alaska.

HAYM SOLOMON NAT'L

MONUMENT ASSOCIATION San Francisco, July 25.—The Haym Solomon National Monument associa-tion was organized here last night. The tion was organized here last night. The purpose is to build a monument in Washington to the financier who con-tributed more than \$600,000 to the colo-nist treasury during the Revolution. Prominent Hebrews in all parts of the country have been named on the executive committee. Joseph B. Greenhue is chairman in New York, Adolph Kraus in Chicago, Nathan Frank in St. Louis, and Julius Kahn on the Pacific

PASSENGER'S PRANK CAUSES ACCIDENT

St. Louis, July 25.—The prank of a passenger on an interurban car re-turning from Creve Coeur lake early today caused a wreck in which 12 personse were injured, several of them dangerously. When the car reached Crow's Nest, about half way between the city and the resort, some one pulled down the trolley pole. A car crashed into it in the darkness,

AERONAUT HAS TWO NARROW ESCAPES

Chicago, July 25.—Prof. Walter F. Schooll, a Chicago aeronaut, had two narrow escapes from death yesterday in a balloon race at Aurora, with Prof. William F. McKinney, of Washington, when the large gas bag made a sudden descent of 700 feet and landed in the Fox river. McKinney rose to a height of 2,000 feet and was declared winner. As Schooll plunged downward the As Schooll plunged downward the large crowd present expected him to be dashed to death. Several minutes later dashed to death. Several minutes later he was struggling in the water in an effort to disentangle himself from the mass of canvas. Fortune again appeared to be with Prof. Schooll as his balloon, after bouncing about a few minutes on the water slowly rose about 20 feet and finally descended gently on a nearby island, where the aeronaut jumped to the ground.

NEW METHOD OF SWEATING GOLD COINS

New York, July 25 .- Secret service agents who have been at work in the Maiden Lane jewelry district have found that gold is being obtained from coins and sold, the coins being put back into circulation, apparently as good as ever. The process consists in placing the coins in a burlap bag, which is shaken vigorously. Thus tiny fakes of metal are knocked off the coins and cling to the bag, which is then burned, the gold melting into wee ingots.
The treasury department at Wash-

The treasury department at Washington has been getting back lately large quantities of gold coin, which seemed more scratched and battered than ordinary. Under the microscope it became evident that these coins had been handled with strange violence. Special agents were sent here to investigate and soon uncovered the industry of shaking the coin in burlaphars.

NEW YORK OBSERVED LIQUOR LAW SUNDAY

New York, July 25.—Not a single complaint by the police of the file-gal sale of liquor in New York City on Sunday was recorded here dur-

ing the 24 hours ended at midnight. This condition is unprecedented and is the climax to three months of the operation of Mayor Gaynor's plan for entorcing the excise law.

The plan was made public in a letter from the mayor on March 21, and was put into operation a fortnight later. On the first Sunday under the Gaynor regulations 326 alleged violations of the law were reported. The number decreased each week afterward. At the end of the first month, the number of complaints had dropped to 62 and a month later to 25.

Yesterday it fell to zero.

DANGEROUSLY ILL FROM SELF-HYPNOTIZATION

Sea Girt, N. J., July 25.—John Pickering, a private of company C. Fifth regiment, is in the hospital at the state camp here, dangerously ill as the result of the successful effort yesterday to hypnotize himself.

Pickering was on guard duty at the governor's cottage. He had read somewhere about self-hypnotism and to while away the hours, tried the method upon himself. He stood still and to better maintain the rigid position demanded by the circumstances fixed his gaze upon an object and remained looking at it intently without relaxing his muscles until he collapsed.

NEW INTERURBAN SERVICE.

Schedule for Midvale and Sandy Announced by Street Car Company,

The new schedule compiled by the street railway management for the couthern interurban traffic goes into southern interurban traffic goes into effect Aug. 1, the date set for opening street car operation between this city. Midvale and Sandy. The destination of the cars will be noted in the transparency carhoods, over the vestibules, and the service is to be hourly to the southernmost points, alternating between Sandy and Midvale. There will be no stub car over Highway 88 from State road to Midvale depot. The service to Lovendahl's corner will be half-hourly, and to Murray center every 15 minutes. The through fare is to be 20 cents, or 10 cents beyond Murray center.

AEROPLANE MATINEES. Garden City, N. Y., July 25.—The first of a series of "aeroplane matinees" under the auspices of the Aero ciub of America, will be held here next Friday on the aviation field. Prizes will be offered for flights of varied character and most of the aviators who have been seen here this summer will compete.

The first part of the program will be a series of exhibition flights. Capt. Baldwin and Mr. Harmon will make ascents at the same time, the one turning to the left and the other following the two-mile course to the right.

left and the other following the two-mile course to the right.

The races will be against the clock—that is, only one machine will be in the air at one time and contests will be three in number. There will be a two-mile race each for novices and veterans, the latter being handicapped, to give the young filers a fair chance. Then there will be a 10-mile contest, and, finally, a 50-mile race.

Capt. Baidwin earlier in the day will attempt to qualify for the New York-St. Louis and New York-Chicago race by a continuous flight of one hour.

AMATEUR BASEBALL,

The Plumbers beat the Painters by a score of 19 to 9 at Wandamere. C. E. Arnup of the Plumbers will be glad to have challenges addressed to him, P. O. box 30. The winning battery yesterday was Harris and Rouse.
